Subject: Deficient Notice of Intention to Commence Small Mining Operations, Martinique Mining Corporation, Crescent Creek/May Day Mill Mine, S/017/0043, Garfield County, Utah

Dear Mr. Azoulay:

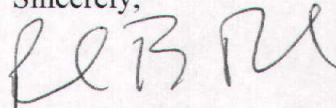

The Division has reviewed the referenced Notice of Intention to Commence Small Mining Operations (NOI), and the following items will need to be addressed before the NOI can be determined complete. I apologize that these deficiencies were not identified previously.

1. The original NOI was based on the BLM notice and is in a form that does not allow direct insertion of modified pages. We ask that you complete the entire NOI form (available on the Division's web site). Among the information missing from the current NOI which can be corrected with submittal of the new form are a signed statement that reclamation will be completed as required by the rules, a concise statement giving general details of the mining operation, an estimate of the total number of surface acres to be affected by the operation, and the amount of material proposed to be extracted.
2. Please also submit new maps as required by the rules. These include a general location map at a scale of about one inch equals 2,000 feet (USGS Quad Map) and an operations map at a scale of about one inch equals 200 feet showing the area to be disturbed, the locations of any facilities, and any previous disturbance for which you are not responsible.

Please provide your response as replacement pages to your original NOI, using Form MR-REV-SMO/EXP, available on the Division's web site at www.ogm.utah.gov. The Division requests that the response be submitted by September 30, 2011.

If you have any questions regarding this letter, please call me at 801-538-5261 or Wayne Western at 801-538-5263. In reply, please refer to file number S/017/0043. Thank you for your cooperation.

Sincerely,

A handwritten signature in dark ink, appearing to read 'PBB' followed by a stylized flourish.
